A1 Elkesley Junctions Improvement Scheme

We write to advise you of forthcoming closures of the A1 carriageway. These are required to complete the drainage works on the southbound carriageway, to undertake preparation for surfacing on the northbound carriageway and then to undertake the full depth surfacing of the northbound carriageway.

We apologise for any inconvenience and trust that you will bear with us during the coming weeks to enable us to progress the completion of the works. There may be some noise particularly during the northbound surfacing works and we will attempt to minimise this as much as possible by progressing works northwards and away from the village later in the night.

Diversions will operate as previously advised during the overnight closures. For the northbound a two way traffic signals system will operate on the A1 northbound carriageway, allowing single lane access to / from the village via Twyford junction (Dover Bottom B6387) and Twyford Lane, Elkesley. The southbound A1 will be closed from the exit slip at Apleyhead to the entry slip at Tywford Lane and the northbound A1 will be closed from the exit slip at the Newark A17/A46 junction to Apleyhead on slip.

We are in consultation with the various authorities regarding the opening of the bridge and the new High Street junction and we will advise of the traffic management proposals for this and the full weekend northbound carriageway closures shortly.

For the residents of Forest Road during the periods of the northbound carriageway closure we will make provision to escort vehicles down the northbound carriageway from Apleyhead Junction. To avoid any delay to your journey could you please call the TSCO approximately 30mins in advance to ensure they are available in time to meet you at Apleyhead. TSCO 07971 404944
